

in the world, and we will have no budget this year. So what I have done and will continue to do is to produce a budget that balances in 5 years; this is consistent with the balanced budget amendment to the Constitution.

And the other reason we do 5 years is that some people have come forward in the past and said that we will balance it in 10. It becomes so long and unbelievable with the cuts in years 9 and 10 that they never happen; that it really hasn't become a good document even when budgets are put forward.

I think if we were to balance our budget, I think we would be a stronger Nation. It is the way we would combat inflation. If you see the people representing the party in power, the Democrats, you see them on TV, they are scratching their heads; they have no idea. They are like we have tried everything. But they don't even understand the problem. They have no idea where inflation is coming from.

Inflation comes from debt. When the Federal Reserve buys the debt, that creates the inflation. Because the Federal Reserve has no money, the money is printed up, and the money floods the system.

But it is also part of a bait and switch. These are people who run for office and say: We will bring you free things. We will bring you baubles. We will bring you manna. We will give you free stuff. We all instinctively know that nothing in life is really free.

So the free stuff that they are going to bring to you is paid for through inflation.

So we have to get away from this. We have to get to the point where we say that we are smarter than this. When a politician calls you up and says: Give me your Social Security number and I will send you a thousand dollars, that is what this is. It is an internet scam. It is a phone scam.

They are asking for your vote by saying: We are going to give you free stuff. There is no free lunch. There is nothing in life that you will get without working. But what we have done is political parties and politicians—sometimes in both parties—offer free stuff to people. But right now we are paying the penalty. We are paying the piper. We are paying the inflation tax.

And the inflation tax is a tax because we have overspent. Inflation will continue to get worse until we begin to reduce the debt. You have got to quit digging the hole. We have this massive hole of debt, and we have to quit digging the hole deeper. So this budget will be a budget that balances in 5 years, and I recommend a "yes" vote.
